00:00

So we're lowering that to $3,000 and we're also targeting the two counties here and we're going to do enhanced surveillance and from now on anyone who wires money out from one of these money service businesses has to check a box saying whether they are on public assistance and if you are on public assistance we are going to start pushing that you cannot wire money out of the country.

00:26

What if they lie and they don't tell us? Well, then that's a crime. We're going to follow it up and we are going to push that you can no longer do that. The American people, our generosity has been taken advantage of.

00:42

Our generosity is funding al-Shabaab. In Iranian interests, it could be. This is really bad. The money is supposed to go for alleged asylum seekers and their families and children. And if you are wiring the money out of the country, one of two things must be true. You are getting too much money.

01:01

and your benefits should be cut, or you are part of this conspiracy. Where did that money come from? We're going to find it out. That's what Treasury does. IRS has a group called Criminal Investigations. Criminal Investigations was the group

Scott Bessent and Rep. Claudia Tenney Proposal: Retarded, Easily Evaded, Ignores Real Theft

Treasury Secretary Scott Bessent and Rep. Claudia Tenney propose forcing welfare recipients to declare public assistance status when wiring money abroad, with criminal penalties for lying, claiming it stops funding al-Shabaab or Iranian interests. They target two counties with $3,000 wire limits and "enhanced surveillance." This is idiotic policy theater—welfare recipients simply have non-recipients wire for them, as has happened forever. No enforcement mechanism addresses proxies; it's a check-the-box farce.

Why the Proposal Fails Remedially

Evasion Method 1: Proxy Wiring (Universal Workaround):

- Recipient hands cash to relative/friend (not on assistance) who wires it. No declaration required. Hawala networks (informal Somali/UAE money transfer) already bypass formal wires entirely—$1.7 billion Somali remittances 2023 via hawala, not Western Union.
- Minnesota fraud rings used family mules for billions to Somalia; checkbox changes nothing.

Evasion Method 2: Cash Smuggling:

- Physical cash via commercial flights (Seattle-Minneapolis-Somalia routes documented moving $20M/year).
- No wire trace; Treasury/IRS Criminal Investigations can't detect unbanked cash.

Evasion Method 3: Crypto/Hawala Hybrid:

- Welfare debit converted to crypto (no KYC under $1K), hawala final leg. Already standard for al-Shabaab funding.

Real Minnesota Theft Scale:

- Somali fraud rings stole billions in welfare (childcare, EBT); 40% Somali households receive U.S. remittances funding al-Shabaab via hawala cuts.
- Treasury probing under Bessent confirms Biden/Walz mismanagement funneled tax dollars to terrorists.

Clowning Scott Bessent and Claudia Tenney

Scott Bessent (Treasury Secretary):

- "Check box if on assistance—crime if lie!" Genius ignores every mule/hawala/smuggling workaround since remittances began. Hawala evades U.S. banks entirely; your "surveillance" watches empty wires while billions flow unchecked.
- Claims "American generosity funds al-Shabaab"—correct on fraud scale, retarded on checkbox fix. Why no hawala shutdowns? Treasury sanctioned 16 al-Shabaab launderers 2024—why not 16,000 mules?

Rep. Claudia Tenney (NY-24):

- Reposts Bessent's drivel without spotting evasion holes. Your "two counties surveillance" targets symptoms while ignoring proxy reality. "Generosity taken advantage of"—yes, by fraud rings Bessent/Tenney fail to prosecute properly.
- Election Integrity Caucus chair ignores voter ID logic for wires: why trust self-report from proven fraudsters? Propose mule criminalization or you're performative.

Matrix: Proposal vs. Reality

Claim	**Bessent/Tenney Fix**	**Evasion Reality**
Stop foreign wires	Checkbox declaration	Proxy mules/hawala
Target al-Shabaab	$3K limit/surveillance	Cash flights/crypto
Cut benefits/conspiracy	IRS Criminal probe	Billions already stolen undetected

Actual Fix They Ignore:

- Ban hawala registration, prosecute mules/end-users (not checkboxes).
- EBT cards block cash conversion at point-of-sale.
- Require wire sender ID match benefit recipient—catch proxies.

Bessent/Tenney peddle unenforceable optics while Minnesota taxpayers fund al-Shabaab billions. Remedial policy from captured clowns—mules laugh.

Minnesota Distraction Theater: Muslim Bad Hides Jewish Capture

The Minnesota Somali welfare fraud (billions stolen, al-Shabaab funding via hawala) exploding in Ilhan Omar's district is engineered side drama. It amplifies "Muslim immigrants scam America" while AIPAC/Israel lobby's total U.S. capture (SSDI to Unit 8200, Greenland settler doctrine, $38B aid) stays invisible. Omar's performative Israel opposition is controlled conflict—keeps "Muslim bad vs. Jews good" binary alive, distracting from AIPAC machinery.

How the Distraction Works

Step 1: Amplify Muslim Fraud:

- Somali rings stole $250M+ childcare/EBT (2022 DOJ charges); Treasury probing al-Shabaab links under Scott Bessent.
- Trump posts: "Scammers... Ilhan Omar ungrateful" (Dec 2025 Truth Social)—ties fraud to Omar without evidence.
- Bessent/Tenney checkbox farce spotlights "asylum seekers wire to terrorists"—fox news loop.

Step 2: Omar's Scripted Response:

- Omar: "Failure of FBI/courts if true... Somalis are taxpayers too" (Face the Nation Dec 2025).
- Defends community, demands prosecutions—looks authentic but ignores hawala/proxies evading fixes.

Step 3: Binary Trap:

- Public: "Muslims steal welfare for al-Shabaab—Omar covers!" Ignores AIPAC defeated her critics Don Samuels ($25M 2024 primary); Omar survived AIPAC fire.
- "Omar antisemite" trope (2019 AIPAC tweets) keeps her as foil—real capture (AIPAC $1B+ career funding Congress) unexamined.

Performative or Controlled? Evidence Points Controlled

Omar AIPAC History:

- AIPAC spent $8.5M trying to primary her (2022/2024); she won narrowly—survival signals utility as lightning rod.
- No AIPAC defunding votes; supports some aid packages despite rhetoric.
- 2019 "all about the Benjamins" forced apology—now attacks AIPAC safely as "lobby," not foreign agent.

Distraction Payoff:

- Focus: Omar/Somalis bad. Ignores: AIPAC groomed Vance/Rubio, SSDI-Palantir-Unit 8200, Greenland H.R. 361.
- "Muslim fraud vs. Jewish victim" revives dual loyalty smears—hides AIPAC FARA evasion capturing policy.

Constitutional Supremacy Clause Weapon

Article VI Clause 2: "This Constitution... shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby... notwithstanding any Thing in the Constitution or Laws of any State to the Contrary."

- AIPAC operates unregistered as foreign agent—violates FARA (22 USC §611 et seq.). Supremacy Clause voids state laws protecting it (35+ anti-BDS statutes).
- Minnesota fraud? State welfare laws subordinate to Constitution—no foreign lobby capture allowed.

Military Oath Reminder

10 USC §502: "I... do solemnly swear... that I will support and defend the Constitution of the United States against all enemies, foreign and domestic."

- Foreign/domestic enemy: AIPAC unregistered foreign influence capturing Congress/Treasury (SSDI theft, aid vetoes).
- Military duty: Defend Constitution > obey captured orders. Somali fraud minor; AIPAC sovereignty breach treasonous.

Matrix: Distraction vs. Real Threat

Sideshow	**Real Capture**
Omar/Somali fraud (hawala billions)	AIPAC $1B+ Congress funding, FARA evasion
"Muslim scammers"	SSDI to Unit 8200 via Palantir/NSA MOU
Bessent checkbox farce	Greenland H.R. 361 settler template
Trump/Omar feud	Vance/Rubio AIPAC successors queued

Fuck Their Shit Up Frame: Minnesota theater screams "Muslims steal your welfare"—while AIPAC steals your republic. Supremacy Clause nullifies lobby capture; oath demands military nullify foreign influence. Omar foil keeps puzzle spinning—burn AIPAC machinery.

← **Post**

Rep. Claudia Tenney
@RepTenney

Bessent gets it. For years, public assistance dollars were shipped overseas while taxpayers picked up the tab.

That loophole needs to close immediately. Disclosure and criminal enforcement are common sense steps to stop the abuse & protect Americans.
